

# DIXON EVENING TELEGRAPH.

OFFICIAL PAPER OF THE CITY OF DIXON BY ACT OF CITY COUNCIL

OFFICIAL PAPER OF LEE COUNTY BY ACT OF SUPERVISORS

Telegraph Sixty-Second Year

DIXON, ILLINOIS MONDAY AUGUST 11 1913

Dixon Daily Telegraph Thirtieth Year No. 189

## GIANT TREE BLOWN OVER ON AUTOISTS

ALLEN SMITH AND FAMILY HAD NARROW ESCAPE FROM DEATH.

HAPPENED ON FRANKLIN ROAD

Severe Storm of Wind and Rain Compelled Them to Seek Shelter Under Tree—Had to be Cut Out With Axes.

Allen N. Smith and family had as narrow an escape from death as they ever want to experience Saturday evening when a big tree blew over during the terrific wind storm and crashed down on their auto, damaging the machine and imprisoning them until a rescue party arrived with axes and cut away the debris, releasing them.

Mr. Smith, his wife and two boys started out Saturday afternoon for a trip through the eastern end of Lee county. They were returning and were on the Franklin Grove-Dixon road, going through the long lane of mammoth trees that border a stretch of the highway west of the Nachusa corners when a terrible storm overtook them.

They had no side curtains on their car, and drew up in the shelter of one of the largest trees, in hopes it would shield them from the rain.

Mr. Smith had a large rain coat which they held up on the wind side to keep out the storm, but it was ineffective and after a few moments Mr. Smith crawled back into the tonneau, where his wife and boys were, to help them hold the coat in place, and all four crouched down in the bottom of the machine.

This action probably saved the lives of some of them, at least, for the terrific wind uprooted one of the giant trees and sent it crashing down on the machine, crushing the top, knocking off the windshield, bending the fenders and otherwise damaging the machine, but leaving the occupants, who were protected in their position between the seats, unhurt. Their escape was very fortunate.

There were two other machines directly back of the Dixon people, loaded with tourists from Chicago, and they saw the accident and believed those in the machine were killed. They procured axes and with the assistance of other autoists who came along soon after the accident, cleared away the wreckage.

The accident happened about 6 p. m. Mr. Smith was able to drive his machine to the city under its own power.

## REMEMBERS DIXON

That John R. Carpenter, our former well known citizen, who now conducts the Oakdale cash grocery at Medford, Ore., is still interested in Dixon is indicated by his renewal of his subscription to the Telegraph for another year.

## FORMER DIXON MAN DIED IN CHICAGO

J. R. ISDELL PASSED AWAY ON THURSDAY—BURIAL IN WALNUT.

J. R. Isdell, formerly of Dixon, passed away at his home in Chicago Thursday, Aug. 7. Burial took place in Walnut, this county, on Friday. The family lived for several years in Walnut, moving from there to Dixon and from there to Chicago about three years ago. Mr. Isdell, who was 71 years of age, is survived by his wife and two sons, Earl and Darius. The many friends in Lee county are grieved to learn of the death of the respected gentleman.

## MOVES INTO NEW HOUSE.

Mrs. Elizabeth Moyer has moved into her pretty new home on East Fellows street, the first to be completed of the many beautiful new houses that are being built in North Dixon this year.

## COUNCIL WILL MEET.

The city council will hold its weekly meeting tonight.

## TRY TO CREATE WAR WITH MEXICO SAYS PRESIDENT WILSON

PRESIDENT SAYS HE BELIEVES THERE WAS ORGANIZED EFFORT.

NO OCCASION FOR ALARM

Wilson Says Situation in Mexico is Clearing Up—Lind Arrived in Capital Today.

Washington, D. C., Aug. 11—Special Telegram—President Wilson let it be known today that he believes there is an organized desire proceeding from sources unknown to him bent on a war between the United States and Mexico. He said there was no occasion for alarm as the situation has improved in many respects.

Word from the president's private envoy John Lind who has just arrived unharmed in Mexico City, states that he has made the initial move toward delivering his message from this government to the Huerta government.

## Americans Flee.

New Orleans, Aug. 11—Special Telegram—Passengers arriving in this city on the German steamer Spreewald from America declared today that American residents of Mexico are fleeing from the revolt-ridden country in panicky fear and leaving everything behind them.

## CHAS. GOETZENBERGER PASSED AWAY SUNDAY

POPULAR FRANKLIN GROVE MAN SUCCEDED TO TYPHOID FEVER.

R. Charles Goetzenberger of Franklin Grove, one of the most popular young men in that town, passed away at 3 a. m. Sunday after four weeks' desperate illness with typhoid fever.

The funeral will take place Thursday at 2 p. m. from the late home on Main street and Rev. MacWherter, Presbyterian minister, will have charge of the services. Burial will be at Franklin Grove.

Charles Goetzenberger was born 32 years ago in Franklin Grove and with the exception of a few years spent in Chadwick, had lived all his life in the home of his birth. During the past few years he was engaged in running a bakery shop in Franklin Grove and was considered one of the town's most respected and best liked citizens. His death has thrown a shadow of sorrow over the community. Mr. Goetzenberger also had many friends in Dixon and other parts of the county who are pained to learn of his untimely demise.

He was married June 1, 1904, to Miss Matilda Miller of Chadwick, and leaves a loving wife and thirteen-months-old son, Frank, and is also survived by his parents, Mr. and Mrs. Frank Goetzenberger of a one sister, Rose Lookingland, wife of George Lookingland of Franklin Grove.

His death is extremely sad and is a great loss to the community in which he lived.

## SOLDIERS & SAILORS REUNION TOMORROW

LARGE NUMBER OF VETERANS WILL BE AT ASSEMBLY PARK.

The annual reunion of the Northwestern Illinois Soldiers and Sailors' association will be held at the Rock River Assembly park tomorrow and if the weather conditions conditions become favorable an exceptionally large number of veterans are expected to attend, as at this meeting a movement to have the reunions last for two days hereafter will be made. The public is cordially invited to attend the camp fire tomorrow afternoon and evening.

## BROWNS & MORRISON TIE IN 11 INNINGS

NEWLY ORGANIZED TEAM HAD A THRILLING BATTLE HERE YESTERDAY.

WAS EXCELLENT EXHIBITION

Manager Joe Vaile Made Desperate Effort—Huber Pitched Fine Ball—Play Sterling Next.

The Mexican situation with all its complications, as it appears to Prexy Wilson, had nothing on the proposition that faced Manager Joe Vaile of the reorganized Dixon Browns in the eleventh inning yesterday afternoon, for when the Browns came to bat in their half of that session the score was 4 all, and an agreement had been reached to call the game—which was the debut of the Browns—at the end of the round.

And in an effort to start the belated season with a victory Mr. Vaile called on his reserves—and the reserves struck out. Wherefore it is the chronologists' sad duty to report the game thusly: Dixon, 4; Morrison, 4. As far as scoring goes the game might just as well have been called at the end of the seventh inning.

## Freeport Lost.

Strange as it may seem, gentle reader, the debutantes would have won the game but for Freeport. Two Freeport men, who evidently had off days, were the undoing of Mr. Vaile's "buds" and Mr. Huber's excellent pitching, for in the third inning when the reorganized host were scoring a lot of runs and were gently pushing the Morrison bunch into the air, Mr. Ruthe of Freeport gave an exhibition (a la Whitebread) of how not to touch first base, thereby making the third out which nipped our rally and robbed us of one run which Mr. Vaile had made by dint of persistent and daring base runnings. And again in the fifth Mr. Kalem of Freeport, who was doing the receiving as if he really enjoyed it, heaved the ball over second and over third once, each heave being accomplished with great talent. As a result of which accomplished throwing and two bingles the visitors shoved three runs across the pan.

## Dixon Scores First.

The debutantes started the scoring diversion. Monahan, first up in the third, tried his best to make the ball hit his bat, but couldn't, but things looked up a bit when Connors was safe on Morley's bunt. Huber hit to Morley and Connors was forced at second and with two down it looked as if Vaile's Vikings would have about as much chance of scoring as Huerta has of having his regime recognized by the powers that be at Washington. Mr. Dalton of Freeport upheld the reputation of the Germans by pushing one through short and then Mr. Ritchie very accommodatingly dropped Vaile's high fly to right and Huber and Dalton scored. Gen. Vaile taking second. At this stage Mr. Ruthe hit safely into center and then staged his touch-me-not sketch, as a result of which the curtain was rung down and Vaile's score was marked off the book, after the scorekeepers had received much unmerited abuse. Let it be known right here that scorekeepers do not decide the plays and when the ump says a run doesn't count we'll break the point off our pencil before we mark said run on a perfectly clean piece of paper.

## Morrison Comes Back.

But, in the words of Correspondent Byers, let us not digress and lose the point we are trying to reach. The refrigerator manufactures came back in the fourth and again in the fifth. In the fourth Ritchie scored because of his hit, a sacrifice by Wilson and Morley's bingle into right. And then came the fifth, with Mr. Kalem playing the stellar role. In justice to the catcher let it be known that the slight gauges on his firing arm were rusty and he couldn't lower them which accounts for his high heaves. Knox starting the session, was fanned for the second time. Howe got a hit, although it is said he didn't know how he did it—got it, Pauline—and Walraven struck out in the most acceptable manner. With two down there was no real occasion for worry when Hube passed Burkett. Then Kalem,

## F. A. WATSON'S DEATH HALTS GODFREY CASE

JUDGE O. E. HEARD RECONVENED CIRCUIT COURT HERE TODAY.

TWO NEW DIVORCE SUITS

Lulu Foster Schrader and Mrs. Lillian Haskell Ask Separation From Husbands.

Judge O. E. Heard of Freeport reconvened the April term of the Lee county circuit court this morning for a short session, adjourning later until next Monday morning. At the session an order for partition sale of the Caroline Bevans Perkins section of land in Hamilton township, suit for which was tried some time ago, was entered. Judge Heard had expected to enter an order in the ejectment suit of Godfrey vs. Watson today but the death of Fred A. Watson, the defendant, made such an order unnecessary and no order will be entered until the administrator of his estate is named and the substitution of the administrator for Mr. Watson is made. This case has been in court for years.

Two new divorce suits have been started in the circuit court, declarations being filed Saturday. Mrs. Lulu D. Schrader is asking divorce from her husband, Louis C. Schrader, to whom she was married in Dixon Aug. 11, 1911. She charges extreme and repeated cruelty and asks the right to resume her maiden name, Lulu Foster.

## Hassel vs. Hassel.

Mrs. Lillian M. Hassel also asks separation from her husband, John A. Hassel, on the alleged grounds of habitual drunkenness, extreme and repeated cruelty and non-support. The couple were married in Clinton, Ia., July 27, 1907, and lived together until April 14, 1911. One child, John A., aged 4, was born to them and the mother asks its custody.

## WILL OPEN BRANCH OFFICE

Dr. Caldwell, the specialist, who is located at the Dewey Hotel, is contemplating the opening of a branch office in some of the surrounding towns.

## R L. Burchell and daughter, Miss Marguerite, and nephew, Lawrence Burchell, of Erie, returned to their home today after spending a couple of weeks at the Assembly.

started and when he got through with his wild heaves, which came between singles by Ritchie and Wilson, the visitors had crossed the pan just three times. That was all they got—praise be!

## Score Tied Up.

The Browns came back in their half of the fifth. Connors hit safely through the infield and went to second on a wild pitch. Huber skied to center but Dalton came across with a needed bingle into left on which the speedy Mr. Connors scored after throwing mud all over the universe from his swiftly flying boots. Vaile fanned.

We tied her up in the seventh. Kalem started it with a two bagger and showed that he hadn't wasted all his strength in the aforementioned heaving and he went on to third on a passed ball Monahan lifted a short one to third and Connors hit a hard one to short. Howe dropped the ball instead of putting it on Connors and the evening run counted. Huber went out, short to first, and Dalton fanned ending the scoring.

In the eleventh Mr. Vaile jerked himself and shoved Curran, a pinch hitter, into the breach to start the inning. But Frank fanned. Ruthe skied to right and Bob Woodyatt was sent in as a last hope after Mr. Gregor got in front of a slow pitch. Bob followed Curran's example, and it was all over. The statistics:

Morrison	ab	r	h	a	e
Burkett, 3b	3	1	0	1	0
Ritchie, rf	5	2	2	2	0
Wilson, 1b	3	0	1	14	0
Morley, ss	4	0	1	0	7
Ostema, lf	4	0	0	3	0
Curtis, 2b	3	0	0	1	2
Fletcher	1	0	0	0	0

Continued on page 4

## JOLIET PRISONERS TO BE AT GRANDY

STATE PRISONERS WILL BE PUT TO WORK MAKING ROAD NEAR THERE.

IS FIRST TRIAL IN ILLINOIS

Will Macadamize Big Clay Hill and Sand Road at Bottom—Is Big Saving to the County.

The first convict labor in the state of Illinois, as legalized by an act of the last general assembly, will be done on the big hill just north of Grand Detour where, if present plans materialize 25 inmates of the Joliet penitentiary will commence work next week repairing a piece of road that has needed attention for some time.

Through the instrumentality of Hon. John P. Devine of this city and James F. Wilson of Woosung therefore, Ogle county will be the first to try out Illinois' new system of convict labor. Grand Detour voters have bonded the town for \$5500, \$2000 of which is being spent in other parts of the township, the balance to be expended on the big hill.

## Engineers at Work

Two state engineers have been surveying on the road for over a week and it is expected their measurements will be completed by the last of this week or the first of next. The road is to be macadamized in the best possible manner and the convict labor will save Grand Detour many hundreds of dollars.

Under the provisions of the new law the warden of any of the state penal institutions can detail for work on roads in any township in the state as many men as are needed, the only expense to the township being the hire of what additional guards are necessary.

## On Their Honor.

It is not thought that many additional guards will be engaged to watch the prisoners who will work at Grand Detour as Governor Dunne, through his representatives, will impress on the men the futility of attempting to escape, and he will also show them the responsibility devolving upon them as the first of Illinois prisoners to be benefited by a law similar to that in force in many other states. The men will be placed on their honor and will be rewarded for good behavior and faithfulness to their work.

It is not yet certain when the men will arrive from Joliet but Mr. Devine expects notification from Warden Allen in time to arrange for the prisoners' transportation to Grand Detour and accommodation for them while there.

## FUNERAL OF FRED A. WATSON HELD TODAY

A LARGE NUMBER OF FRIENDS GATHERED TO PAY LAST TRIBUTE.

The funeral of Frederick A. Watson, owner of the Red School House shoe factory, was held this afternoon at 2 o'clock at St. Luke's Episcopal church, where a very large number of friends of the deceased gathered to pay last tribute to him. The services were conducted by Rev. A. B. Whitcombe and music was furnished by members of the Elks club, of which Mr. Watson was a member and of which order a large number attended in a body. Burial was at Oakwood cemetery.

The remains of the man who has done so much for Dixon during his life time arrived in Dixon at 12:50 o'clock this noon and were taken at once to the church where they laid in state until the services. A party of fifteen associates of the deceased accompanied the widow and the remains to this city and after the service went to be home of George C. Loveland.

The following were the pall bearers: J. P. Plummer, M. J. Gannon, C. W. Toone, Frank Balz, Jesse Haber and J. S. Hauser. Honorary pall bearers: C. J. Rosbrook, A. K. Trudale, E. C. Parsons, H. S. Dixon, I. B. Countryman and W. B. Brinton.

## LUTZ WILL CASE PUZZLES LAWYERS

GRANDSON OF LATE WEALTHY VIOLA MAN ASKS FOR PROBATION OF WILL.

THE ARE MANY EHEIRS

Witnesses Refuse to Swear to the Soundness of Mind of Mr. Lutz—Partition Asked.

Hearing on a petition of more than ordinary interest, involving an estate valued at over \$100,000 was started before Judge R. H. Scott today when Attorney Harry Lopfein, grandson of the late John L. Lutz of Viola, asked to have former orders regarding the will set aside and to have the will admitted a probate.

## Story of the Case.

In order that the complicated questions before the court may be understood a short resume of the case will not be amiss.

When John A. Lutz, a wealthy land owner of Viola died some time ago he left a will bequeathing to his eight children the use of his property during their lives, at their death all to go to the grandchildren, of whom there are 23. The will was presented to the county court for probate but was refused because but one witness, Jacob Spath, would testify that deceased was of sound mind when he drew the paper. The other witnesses, W. B. McHenry and W. R. Dusher, both of Rochelle, refused to testify that deceased was of sound mind. As the law requires at least two witnesses testify to the sanity of the maker of the will, it was refused and the big estate was intestate and descended to the children.

## Asks Partition.

Within a short time after this action Mrs. Mary Starck, one of Mr. Lutz' daughters of DeKalb, started a partition suit, as a result of which a decree for partition sale was entered in the Lee county circuit court and the real estate holdings sold at master's sale at the court house here, the property bringing over \$100,000. Then complications developed.

Purchasers of the property took their abstracts to A. C. Warner for inspection and after investigation Mr. Warner refused to approve the titles. Simultaneously Harry Lopfein, a grandson, attained his majority and immediately through Attorneys Harry Edwards of Dixon and C. F. Preston of Pawpaw filed a petition in the county court asking that the order of the court refusing the will for probate be set aside and a hearing be held and the will admitted to probate on the grounds that at the time of the hearing on the first petition to file the will no guardian ad litem (during litigation) had been appointed to represent the 23 minor grandchildren, of which he was one and as the orders of the court deprived the grandchildren of their rights the court's action was invalid.

Accordingly last Monday Judge Scott heard arguments on the petition that a guardian be appointed and Attorney Geo. C. Dixon was named guardian ad litem to represent the 22 minor grandchildren, the petitioner having attained legal age. Mrs. Mary Stack is resisting, through her attorneys, S. V. Wirlick of Rochelle, Julius Matson of DeKalb and John E. Erwin of this city the setting aside of the former orders of the county court and the arguments were begun this afternoon.

## TO FIGHT MILK PRICES.

The Telegraph learned today from a prominent citizen that a number of Dixon consumers have decided to fight, if possible, the increase in the price recently announced by the milk dealers of the city and it is very probable that States Attorney Edwards will be asked to investigate and ascertain if the action of the dealers does not violate the state laws regarding conspiracy.

## WAS TAKEN ILL.

Mrs. Lucy Rosbrook was taken suddenly ill while at camp on Anderson island above Grand Detour this morning and was brought to her home in this city.

## ASSEMBLY PROGRAM CLOSED LAST NIGHT

VERY SUCCESSFUL TWO WEEKS TERMINATED WITH SUNDAY'S PROGRAM.

ASSEMBLY ENJOYED GOOD PATRONAGE

Everyone Who Attended Has Good Word to Say for Management of the Big Affair.

A program of sacred music last night closed the 26th annual session of the Rock River Assembly.

It was a very successful session, both from a financial standpoint and perfection of program. The program was the best given in years—it pleased more people. There was something on the program this year to meet the requirements of all. There were splendid musical attractions for lovers of good music and the professional musician. There were lectures for all.

The bible conference was very successful this year. The attendance at the conference was larger than in former years. The Round Table programs were excellent and more interesting than in former years. Quite a class of readers will result from the session. The Bethany work was more successful than in other sessions and the devotional services excelled those of other years. The Assembly Sunday school also was a success, the attendance being larger than last year.

The board of directors are to be congratulated upon the success of the Assembly this year.

## Campers Leaving.

By tonight there will be few campers in Assembly park. Some will remain until after the Soldiers' reunion. Campers declare they enjoyed camp life here this year very much. Many, in fact the majority of them will return next year, having already leased their lots.

## Interesting Lecture.

Father Edw. P. Graham of Sandusky, O., delivered the last lecture of the session. Nearly 4000 heard this remarkable man deliver his most interesting lecture on "Reason and Religion." They followed the speaker closely from start to finish. His arguments were new and interesting, for Father Graham has the faculty of dealing with his subject in a way that renders it intelligible to all. He demonstrated that he is a theologian and a fine public speaker. He is a man of cordial bearing and pleasing appearance.

Father Graham divided his lecture into two parts, one part dealing with the Creator and the other dealing exclusively with the soul.

## Entertainment Good

As usual the entertainment given by the boys and girls of the Assembly was very good. Each drill showed much training by the instructors. It required much tact to put on an entertainment such as was given Saturday evening. The events worthy of special mention were the rose drill by the girls and the flag drill by the boys. The games by the girls were very pretty. The banana and cracker race brought down the house and everyone roared with laughter. Skinning the snake was a difficult feat, but it was successfully given. The pyramids were good. Much credit is due to Secretary Bailey and Miss Hill for the success of the entertainment. The audience was large considering the threatening weather during the evening.

## Peachers' Quartet Good.

The last musical attraction proved one of the best. The Chicago Preachers' Quartet pleased with the songs they rendered. Their balance and harmony was faultless and the solo work was of the highest order.

The sacred concert last evening was one of the best of the kind ever listened to at the Assembly.

## New Men Make Good.

Two new men entered upon responsible duties this session: H. M. Rasch, secretary, who succeeded N. H. Long, and Rev. C. Edward Derr, Ph.D., the platform manager. Both men performed their exacting duties.

Continued on page 4

## Social Happenings

**Entertained Friday at Johnson's**  
Mr. and Mrs. Fred Rhodes and children of Mt. Carroll, who have been camping at Assembly park the past two weeks, were entertained Friday at the home of Mr. and Mrs. R. L. Johnson on East First street, Mr. Rhodes and family left for their home today.

**Home From Vacation.**  
Dr. E. A. Sickels arrived home this afternoon from his vacation, which he spent near Hayward, Wis., on a fishing trip, and will be at his office this evening.

**Ice Cream Social.**  
The Prairieville church will hold an ice cream and cake social on Wednesday evening, Aug. 13. Cochran's orchestra of Sterling will furnish music. An invitation is extended to all to attend.

**Band Concert and Dance.**  
The Dixon Marine band will furnish music for the dancing party to be given on the lawn preceding the on Friday night. A band concert will be given on the lawn preceding the dance.

**Missionary Meeting and Supper**  
The Women's Home Missionary society of the M. E. church will hold their regular meeting with Mrs. Wm. Block on Wednesday afternoon at Assembly park. Election of officers will be held, followed by a scramble supper. It is desired that all bring their dishes and sandwiches.

**Missionary Society.**  
The Missionary society of the Evangelical church will meet Tuesday at 2:30 p. m. at the home of Mrs. Hill, corner Crawford and Fellows street.

**Return From Outing.**  
A party consisting of Roy Brink and wife and Jeanette Vaughan of Amboy, Ada Brink, Lina Miller, Frank Robinson and Homer Sennett and wife returned yesterday from a two weeks' outing at Lake Shawano, Wis.

**No Social Session.**  
There will be a regular meeting of the Elks' club tonight at the club house, but the social session, which was announced last week, will be omitted on account of the death of Brothers F. A. Waason and Harry Miller.

Initiation will be a feature of the meeting tonight. Every members should attend.

**Session of Sorrow.**  
A session of sorrow will be held at the Elks' club tonight in memory of Brothers F. A. Watson and Harry Miller.

**Entertained**  
Mr. and Mrs. Clare Harrison of Sterling were entertained yesterday at the home of Mrs. Mary Bailey.

**SWITCHES MADE FROM COMBING**  
**FLORENCE I. DUSTMAN**  
Announces the Opening of  
**THE BEAUTY SHOP**  
123 1-2 First St. Over Martin's Store  
Hair Dressing, Shampooing, Manicuring,  
Facial and Scalp Massage, Hair Work.  
Phone 418 Dixon, Ill.

## Eyes can be rested

While they work.  
If you wear the proper Glasses you will find that your eyes will stand as much work as they ever did.

That's a great advantage of Glasses—they give relief the minute you put them on—and give it continuously.

BUT—  
The Glasses must be chosen with absolute accuracy.

In optics a small error is a big error. We can guarantee you perfect satisfaction.

**DR. W. F. AYDELOTTE,**  
Neurologist and Health Instructor,  
223 Crawford Ave., Dixon.  
Phone 160 for Appointments.

### Here From Compton.

Mrs. Leola Merriman and daughter Hester returned to Compton this evening after a visit at the Assembly.

### Mrs. Loveland Here.

Mrs. Geo. C. Loveland returned on Saturday from Sturgeon Bay, Wis., on account of the death of Fred A. Watson. The funeral party, Mrs. F. A. Watson, Mrs. H. E. Paine, Mrs. Sweet and daughter and Mr. Belcher, Mr. Watson's business manager, are Mrs. Loveland's guests. They returned to Chicago on the evening train. George C. Loveland was unable to come to Dixon for the funeral on account of illness.

## City In Brief

Miss Bessie Anderson went to the city Saturday to visit her aunt.

Mrs. George D. Masten and children, who have been visiting at the homes of Mrs. H. U. Bardwell and Mrs. Eustace Shaw, left today for Clinton, Ia., where they will take a steamer to St. Paul.

Mrs. Annie Taylor of Delavan visited her uncle, Geo. Kime, and family on her way to Chicago.

Ira Ware made a Sunday visit in Dixon with his parents, Mr. and Mrs. Henry Ware, returning to the city last evening accompanied by his wife, who has been a guest at the Ware home for two weeks.

F. G. Emmert of Franklin was in town today.

Mrs. Leonard Andrus of Portland, Ore., is here for a visit. She has just returned from a visit with Mrs. Margaret Morris Mogan of Shields, Pa. Miss Allie Patrick, society editor of the Telegraph, is on her vacation.

### AWARD PAVING CONTRACTS

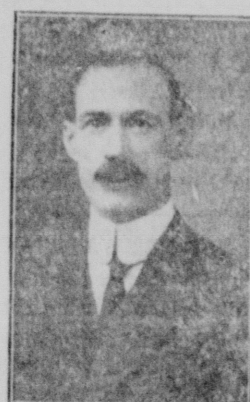

The board of local improvements and council met in joint session this afternoon and awarded the contracts for the Third and Second Z. pavements, the first going to Rink & Schnell and the last to Geo. Welch of Beloit, Wis. On bidders submitted proposals on the three sewer jobs which were to have been let today.

## Consult Me Free

If You Suffer With Chronic Disease

I say that almost every case of Rheumatism, Kidney Trouble, Nervous trouble and all chronic diseases should be curable by my new Neuro-pathic System of treatment if the disease has not gone so far as to destroy the affected organs. If you are suffering do not delay and allow your trouble to become incurable, come and let me explain this wonderful new system of treatment that is having such remarkable success to you. I will examine you free and tell you frankly whether or not your trouble is curable by this system of treatment. I will be at the Nachusa House from 9 a. m. until 5 p. m. Thursday, August 14.

Ben G. Davis  
Chief Clerk of Sec  
of State, Wash-  
ington, D. C.

Mount Morris Business College is the place for you. Since Dixon College has closed continue your work at Mount Morris College.

Read what Sec. Bryan's Chief Clerk says. He knows for he was once a student with us.

"My years spent at Mount Morris College I have long since realized were invaluable years to me"

MOUNT MORRIS, ILL.

### DECLARED DEPENDENT.

The six children of Mrs. Rose Thompson of Amboy were declared dependent in the county court today and placed under the orders of the probator officer, while their mother was ordered to see that home conditions are made more favorable for them hereafter.

## WAR ON HOG CHOLERA

Serum Developed by Department of Agriculture Used.

Cleaning Up of Infection Is Huge Job, But Believed Can Be Accomplished Same as Eradication of Ticks in South.

Beginning with a few counties in Iowa and Indiana, the department of agriculture is commencing a campaign for the eradication of hog cholera. As this disease is as widespread as the hog raising industry, which covers the whole country, the cleaning up of the infection is a large order. It is believed, however, that it can be done in much the same way that the cattle tick is being eradicated from the south.

Before the tick eradication work started it was feared that it was an impossible task. The experts of the department, however, figured out methods of cattle dipping, pasture rotation and other means of control so that now a quarter of the area in the south that formerly was under strict cattle quarantine has been declared tick free and released. Counties adjoining the cleared territory have seen the benefit and are taking up the work so that eventually the impossible will be accomplished and the whole of the south will be turned into a cattle-raising country.

It is thought that the same thing can be done with hog cholera. Congress last year appropriated \$75,000 to start the work. The beginning in Iowa will be in co-operation with the Iowa State college. The method used will be the serum that was developed by Doctor Dorsett of the department of agriculture.

Hog cholera is by all odds the greatest scourge of the hog-raising industry. It was estimated that it cost the farmers last year \$60,000,000. Before the discovery of the serum treatment the toll was still larger. Cholera was regarded as inevitable and was almost always fatal. There was no protection against it except segregating the well hogs, and this precaution was uncertain.

The injection of the serum gives immunity from attack even on close contact. The immunity is not permanent, but it lasts long enough to allow cleaning up an entire community. It was estimated that the second year the serum was in use it saved about \$11,000,000. Now many of the states are manufacturing the serum in their own agricultural laboratories and distribute it free on application.

The plan for cleaning up the country is to commence on county areas, as is being done in Indiana and Iowa, and gradually spread the work, cleaning up in widening circles and preventing the importation of the disease by careful quarantine. Any specific local outbreak will be wiped out as quickly as it can be located.

It may be the work of years to get all the country cleaned, but it is believed once it is cleaned it can be kept so. This will mean a great increase in the hog-raising industry, larger profits and a proportionate reduction in the price of meat.

**Summer Pruning of Peaches.**  
Summer pruning should never be severe, however, for top growth and root growth are interdependent and in a well-rooted tree, and severe cutting would throw its root system out of balance and hold the tree back. A good top and plenty of dark green foliage are essential to healthy growth.

The work of summer pruning is so easily done that it is a temptation to go at the young and tender wood with the hands alone, but there is danger of skinning down from the broken twig a shoot. A pair of clippers such as one uses in pruning vines is safer.

### DR. A. D. MELVIN

Dr. Melvin, chief of the bureau of animal industry of the department of agriculture, has gone to the Argentine republic to investigate slaughter house conditions there because so much beef is now imported from that country. He will also visit Brazil, Uruguay and Paraguay.

## KNIGHTS ARE IN DENVER

City Ablaze With Lights in Triennial Conclave.

Vanguard of Crusaders Arrives—Begin Discussion of Candidates for Wardens.

Denver, Colo., Aug. 11.—Gaily bedecked Denver welcomed the vanguard of Knights Templar and their families for the thirty-second triennial convocation of the order.

To demonstrate its right to be called the "city of light," Denver has installed one million extra globes and at night the first illumination was given as part of the formal welcome of the grand master, William Browned Melish of Cincinnati, and his staff.

Just after dusk Sir Knight William J. Barker touched the button which flashed into brilliance every conclave illumination in the city. Though the conclave will not be formally opened until Tuesday, the illuminations will be continued until the conclusion of the triennial.

Thousands of knights are in the city and in full dress added much to the spectacular promenade and festivities of the night. Perhaps the most dazzling bit of illuminated decoration is the welcome arch at one end of the four blocks long court of honor.

Along the court of honor stand monumental pillars of multi-colored glass, illuminated from within and surmounted with red, yellow and blue balls of light, from which rise a never-ceasing cloud of steam.

At the other end of the court of honor stands a gigantic mounted knight, guarding, as it were, the pleasure and the glory of his human brother knights as they revel in the festival along the courts of honor.

Early arrivals from commanderies outside of Colorado discussed possible candidates for the offices of grand senior warden and grand junior warden to be elected next Thursday. Two offices are to be filled by reason of the death of Very Eminent Sir W. F. Pierce of San Francisco, grand generalissimo.

Expressions favored the selection of a man from the grand commandery of Iowa for grand senior warden. Informally, also, the names of George W. Valley, past grand commander of Colorado and chairman of the conclave committee, was mentioned for grand junior warden, as recognition of his work in preparing for the present conclave.

Early arrivals from New York city and Los Angeles and Atlantic City let it be known that they would like to capture the 1916 conclave.

### SIGN PEACE IN BALKANS

Bucharest Is Scene Where Treaty is Ratified.

Bucharest, Aug. 11.—The peace treaty was signed by the Balkan states. In honor of the occasion the city was decorated with flags, guns were fired, bells were rung, and the bands played.

A solemn to do in the cathedral at noon was attended by King Charles, Queen Elizabeth (Carmen Sylva), and the members of the royal family and delegates to the peace conference. King Charles conferred high decorations on all the delegates except the Bulgarians, who declined them. The peace treaty provides that the Roumanian army shall evacuate Bulgarian territory in 14 days after its signature and the Serbian and Greek armies in three days.

It also provides for arbitration by Belgium, Holland or Switzerland in event of a disagreement over the demarcation of the new frontier. Bulgaria engages to begin demobilization immediately.

## Procrastination is the Thief of Time

### Consumption

If there is any doubt in your mind about that tired, languid feeling, as to the nature of that little cough, the restless, nervous and weak condition, that little bit of fever at times, the flushed face, etc., etc., etc., is it not well to remember in time that about one in every seven to ten people die in the course of the year, due of consumption? The early stages only of this disease are considered curable. It is not wise that you should defer from day to day fearing to learn the truth. Come at once and if that be found to be your condition, my Oxyline treatments (inhalation of ozone) will benefit you at once and if your case is not too far advanced your ultimate cure is but a matter of time. Examination and advice free. Come

**Ladies.**  
All diseases peculiar to your sex successfully treated. Don't suffer longer with headaches, backaches, dragging sensations, irregularities, dizziness, nervousness and other kindred troubles.

**Rheumatism.**  
My electrothermal treatment for rheumatism, neuralgia, sciatica, lumbago and all kindred ailments is the most wonderful pain reliever yet discovered.

**Varicose and Hydrocele.**  
Cured without cutting or any dangerous surgical operations. No pain. No blood. No anesthetic. Cure guaranteed.

**Piles and Rectal Diseases.**  
Cured without pain or the knife. No chloroform, no hospital, no operation. Call today and investigate my methods.

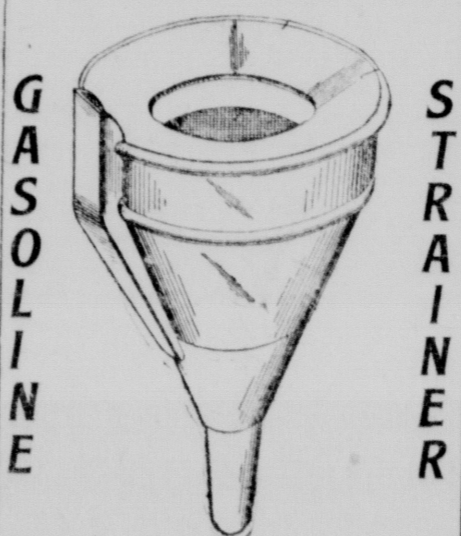

**Prostatic, Kidney, Bladder and All Urinary Diseases.**  
Yield to my treatment at once. Weak back, pain in the side, weakness, enlargement of the prostate gland, chronic inflammation and all catarrhal and unnatural discharges cured to stay cured.

**Nervous Debility.**  
Lost vitality and all weakness, the result of violation of the laws of health, or from any cause whatever, positively cured. If you are conscious of constant drains upon you, come to me and I will cure you.

**Blood Poison.**  
No man can afford to experiment with this terrible disease. Our treatment has cured hundreds and will cure you.

**Consultation is Free.**  
You will find me in my office in ROCHELLE Mondays and Fridays. In my office in Dixon over the Countryman store Tuesdays, Thursdays and Saturdays, 9 a. m. to 5 p. m. Sundays and evenings by special appointment.

### EXCELLENT HAY RACK LIFT

Much Manual Labor May Be Saved by Use of Device Shown in Illustration—How Worked.

(By J. WESLEY GRIFFIN.)  
Much heavy lifting may be avoided by having a place on which the hay rack may rest when not in use. By making a support something like the one shown in the drawing, not only the heavy lifts may be avoided but much time saved. I have known as many as three men to lose an hour each, going to and from the field, just to change a wagon body and the hay frame. This was at a time when time was valuable, more so than other times. With a lift like this one, or something similar, one man can change frames with ease and dispatch. All one has to do is to drive between the posts at the lower end. The rack will be lifted from the wagon as

To Load the Rack.

the team draws it through. The lift should be the same height at the top of the lowest posts, as the top of the wagon wheels, the rear ones, then the rack is raised above the wheels the wagon will pass out, leaving the rack high and dry.

When ready to load the rack, simply drive between the posts, under the rack, and slip back the rack, at the same time back the wagon. As soon as the rear of the rack rests on the wagon, stand on the rear of the rack and your weight will hold the rack in place while the team is backed far enough to let the front of the rack fall in place.

## MONEY IN QUINCE GROWING

There is Unlimited Demand for Them and Fruit Is Neglected More Than Any Other.

Two acres of quinces ought to make more money for the farmer than 20 acres of apples, according to J. C. Whitten, professor of horticulture in the Ohio College of Agriculture, in a lecture to the pomology class.

"The quince is more neglected in proportion to its merits than any of our orchard fruits," he said. "Nobody ever saw an overplus of quinces. There is an unlimited demand for them. If the farmer has a place where they will do well, the crop properly handled will pay better than any of our orchard fruits. The fruit is the firmest we have to ship, the most handsome and the best keeper."

According to Professor Whitten, quince-growing has never had a boom. "This is because the quince grown under ordinary treatment, as most of our apples and other fruits are grown, does not have a good flavor and is poor in quality. The trees must have individual care and expert treatment. It requires the greatest skill to select the right site for the orchard. If properly handled, pruning, spraying and picking are easier than in our other orchards."

"When cooked the quince is the best of our core or stone fruits. For preserves, jellies and the like, the quince is the richest, most highly flavored and the most delicious fruit we have."

## Hint for Horsemen.

Never start to lead the horse from his stall till you hold or fasten back the door. Doors have been known to swing to where they were not fastened open, catching the horse's head, the animal pulling back and breaking his neck.

## SCHOOL AND HOME

New Division in the Bureau of Education.

Department Organizing Branch Where-  
by It Is Hoped to Bring Parents and  
Teachers Nearer Together—  
4,000,000 Mothers to Help.

Washington.—Before another school year rolls around Uncle Sam will have invited more than 4,000,000 mothers of the country to join in the working out of a co-operative plan whereby it is hoped to bring home and school nearer together, to help the parent to get the viewpoint of the teacher on one hand and on the other to help the teacher to guide little Johnny or Mary along lines of thought and work which will make the child a greater help in the home and assist it to develop into a better citizen in the nation.

During the hot months of summer, when both grown-ups and children are giving more attention to vacation plans than to school matters, experts in the United States bureau of education have just begun the organization of a new division to direct this new co-operative work, which will aim at the upbuilding of two of the most important American institutions, the school and the home. For the want of a better name, the new branch of the bureau has been called the division of home education, which might suggest that the purpose of the government is to turn homes into schools. The encouragement of co-operation between parent and teacher, however, is the sole purpose of the division, and in no manner will its work conflict with the activities of the school.

The National Congress of Mothers of the United States is responsible for the establishment of the new branch of the bureau of education. The division now being organized will not be provided for out of government funds, but will be maintained by virtue of a co-operative arrangement with this large mothers' organization, which will provide financial backing for the work, which will be directed and supervised by experts of the bureau of education. This method of providing for the work is similar to the plan followed by the government in conducting the co-operative farm demonstration work in the south, which is made possible largely by funds provided by the general education board, a part of the Rockefeller Foundation. The same system of government co-operation with semi-private institutions is in operation in financing the new rural organization service of the department of agriculture, congress providing \$50,000 for part of the work and the general education board subscribing larger amounts to extend the lines of investigations.

The new division of home education will enable the government to give official sanction to the important work of the parent-teacher associations which have been encouraged by the National Congress of Mothers, and which are now organized in most of the large school centers of the country. The purpose in organizing the divisions is to extend the same idea of co-operation between home and school in the rural and small town communities which the parent-teacher

associations have developed in the large cities.

With this end in view, Commissioner P. P. Claxton of the bureau of education has just mailed to a list of 4,000 county superintendents of schools a letter asking their co-operation in the work about to be taken up by the division of home education, requesting the names of the schools under their supervision in the open country, villages or small towns, and the names of at least two women of intelligence and influence in the vicinity of every elementary and high school. The women, preferably mothers, will be asked to co-operate in the work of the home education division by organizing parent-teacher associations for the discussion of the care and training of children in the home both before and after school age. In the entire country it is expected that there will be named at least 4,000,000 mothers who will co-operate with the government in the work of connecting up school and home to the mutual advantage of both.

The announcement made a few days ago that the pure food law has been invoked by the government to control the illicit cocaine traffic in the United States has brought in many inquiries from persons who want to know why the same law will not be used to cover the traffic in other dangerous habit-forming drugs. Among the drugs about the control of which inquiries have been made are opium, morphine, cocaine, heroin, diazepam, peronin and several others.

The reason which has been given by officials at the treasury department and the bureau of chemistry is that the importation of opium and its derivatives, such as morphine and other drugs, is now regulated, to a greater or lesser extent, by the special opium law of 1909. While this law does not give as thorough control of the traffic in these drugs as the new treasury department regulation will provide for the control of cocaine, coca and its derivatives, it was not considered wise to include opium and opium preparations for the reason that the administration of the new regulation might conflict with the operation of the opium law of 1909. If it is found that the new regulation works well on the control of cocaine it is possible

that a request will be made for the repeal of the opium law and the application of the pure food law to all habit-forming drugs.

The new cocaine regulation will make it necessary for an affidavit to be filled out and signed for every sale of cocaine from the time it reaches the importer at one of the large ports until it reaches the hands of the ultimate consumer. These affidavits will have to be sworn to and a record of the same will have to be made by the dealer, and both sales book and affidavits kept on file for regular inspection by government officials.

Plans are now being made for printing the forms of affidavits which will have to be signed by each importer and purchaser of cocaine, and also the forms of record which each dealer will have to keep and submit to the bureau of chemistry in January of each year. The start which the government has made in controlling the use of dangerous habit-forming drugs is in line with the course which has been pursued by a number of foreign countries which has restricted the sale and use of these drugs most rigidly for a number of years. Nothing in the government's regulation will restrict the use of cocaine in legitimate medical practice, for it is recognized, of course, that only the indiscriminate and promiscuous use of cocaine, opium, morphine and other drugs is dangerous and that the administration of these agents by skillful hands contributes to the relief of pain and suffering.

Senator Jones of Washington is the earliest kind of a bird. Just when the other dignitaries of the senate are turning over in their morning beds for forty winks more he's down at his desk, already elbow-deep in the day's work.

The first morning Senator Jones appeared in the senate building at the gruesome hour of half-past seven in the morning, all fed, shaven and eager for the day's work, the elevator was still asleep. The only thing around to represent the majesty of the United States was the antique negro watchman.

The senator's office was two flights up and he was in a hurry. "Here, you," he exploded upon the solitary darky, "can you run this elevator up to my office?"

"No, boss, I can't," replied the startled attendant.

"Then I can!" rapped out Senator Jones. "Open that door!"

The old darky, bewildered at the whirlwind methods of the western senator, opened up the elevator. The senator grabbed the levers; there was a whirr—and they had arrived!

Every morning since Senator Jones steers that restive elevator along its devious course from the basement to the second floor, carrying as a passenger an admiring darky watchman, whose astonishment at the versatile genius of the pilot is growing daily.

Skim Milk an Asset.  
Dairying provides the cheapest way of raising one's meat on the farm. Pigs, calves and lambs can be raised cheaply on skim milk a little grain and pasture. Every farm where young animals are raised should have plenty of milk and a good pasture.

## MY MESSAGE TO MEN

I NEVER DISAPPOINT MY PATIENTS—I FULFIL EVERY PROMISE AND NEVER HOLD OUT FALSE HOPES

Honest Treatment

You Pay For Results Only

## DR. J. BLAIR GUTHRE

THE SUCCESSFUL AND RELIABLE SPECIALIST WHO HAS CURED SO MANY IN ILLINOIS, WILL BE AT

The Nachusa Hotel, Dixon, Ill., Friday August 15th from 11:30 a. m., to 7 p. m. and re'turn every four weeks.

CONSULTATION, EXAMINATION AND ADVICE  
FREE AND CONFIDENTIAL

I want to talk to every sufferer from varicocoele, blood poison, nervous debility and all diseases peculiar to men. The fact that you have treated elsewhere without benefit and are skeptical does not discourage me in the least; nearly all my patients tell me of the same experience. I am curing these men every day and feel sure that I can do the same for you. I specially solicit these stubborn, chronic, seemingly incurable cases. Men who realize the seriousness and gravity of their condition and will appreciate benefits conferred and the lasting cure I give come to me for free consultation. I will then explain how different, better and more curative are my methods of treatment than those possessed by others. My special training and long years of experience in treating all chronic, nervous, blood, pelvic and special diseases and weakness of men, gives me many advantages over the ordinary physician.

If afflicted it is well worth your while to come and consult me, rather than subject yourself to dangerous, experimental treatment at the hands of some self-styled specialist. These false specialists have never received special knowledge, possess no curative powers and are not true specialists in the proper sense of the word. My sympathy is enlisted with every patient. The curing and building up of weak, broken-down men is my life-work. The welfare and cure of my patients is my only thought. My independent fortune makes the fee a secondary consideration. I differ widely from the grasping doctor, who thinks only of his fee and cares nothing for the suffering of his fellowmen. Investigate before treating elsewhere, it may save you from years of suffering and be the means of changing your whole future. If afflicted, do not delay; call on me today. My specialties are more fully commented upon below, and are well worth the careful perusal of every weak man.

## YOUNG MEN.

Have you, through indiscretion and abuse of nature's law, broken down your health and manhood? Are unnatural drains slowly sapping your vitality? Your pimpled face, dark circled eyes, stooping form, stunted development, bashful manner proclaim your folly to all the world and mar your success in business, pleasure or society. Don't despair. I can rid you of all the symptoms, prepare you anew for married life and make you once more a man among men.

## VARICOCELE.

Neglected varicocoele undermines the physical strength, deranges the mental faculties, racks the nervous system and produces a complete loss of sexual power. I guarantee to cure the most aggravated cases of varicocoele without pain, suffering or inconvenience. Not only do I give you internal constitutional remedies but I also employ a local treatment directed to the weakened parts; a healing circulation of blood is quickly re-established and the wasted glands are enlarged, vigor and vitality are restored. Every trace of weakness disappears; the spermatic cords resume their normal size; the losses and drains of vigor cease; the weak seminal ducts are strengthened; you become stronger and better in every way and will soon possess the sense of being well which accompanies good health and robust manhood. Don't experiment. This is a delicate disease. I have cured thousands of the worst cases without a failure or recurrence. What you want is the request, safest, surest, cure obtainable, and this I am prepared to give you.

## NERVOUS DEBILITY.

Excesses and dissipation have wrecked many lives. Is your wrecked system crying out for help? Are you nervous, irritable and despondent—are you growing weaker; your manhood is on the decline and will soon be lost unless you do something for yourself. My long experience has rendered me thoroughly familiar with all the causes and effects of nervous debility and I have lifted up enough fallen men to make an army. My treatment will remove all the ill-effects of your former folly. Check every drain of your vitality, invigorate the wasted pelvic organs, clear up the clouded brain and quickly restore you to what nature intended—a healthy and happy man, with physical, mental and vital powers complete. Avoid free-prescriptions and temporary stimulants. I guarantee a permanent restoration.

## MIDDLE-AGED MEN.

You are reaping the penalty of neglected youthful sins. Dissipation, excess, private and blood diseases have ravaged your system and undermined your already weakened vitality. Weaknesses have developed into organic disease. You are prematurely old and not the man you should be. Your manhood is on the decline and will soon be lost. Awake to the true condition. I can restore you to perfect health and manhood with special physical, mental and vital powers complete.

## URETHRAL OBSTRUCTIONS.

My cure for Prostatitis is safe, painless and permanent and free from surgery in every form. Every obstruction of the urethra is forever removed, all discharges soon cease, inflammation and soreness are allayed, the prostate gland and bladder are healed and the entire urinary tract is quickly restored to its normal healthy condition. Avoid cutting and delicate operations. They leave you in a worse condition than before. I cure you in from 10 to 20 days.

## BLOOD POISON.

If you have sore throat, mucous patches, pimples, copper colored spots, sores and ulcers, bone pains, falling hair or symptoms of this disease in either preliminary, secondary or tertiary stages, come to me and be forever rid of me. My treatment quickly destroys the virus, clears the skin, purifies the blood and thoroughly cleanses and eradicates all traces of poison from the system. All danger of transmission or recurrence is removed. Don't rely on patent medicine or intrust your health to incompetent druggists or physicians. Consult me at once.

Until a short time ago, scarcely one person in a thousand had ever tasted a really good soda cracker—as it came fresh and crisp from the oven.

Now everybody can know and enjoy the crisp goodness of fresh baked soda crackers without going to the baker's oven.

Uneda Biscuit bring the bakery to you.

A food to live on. Stamina for workers. Strength for the delicate. Give them to the little folks. Five cents.

NATIONAL BISCUIT COMPANY

Representative Benjamin G. Humphreys of Mississippi and Butler Ames, who represented the fifth Massachusetts district in the house until March 4, had personal histories that were curiously interwoven.

Mr. Humphreys is the son of Brig. Gen. Benjamin G. Humphreys of Confederate fame, and Mr. Ames, the son of Maj. Gen. Adelbert Ames and the grandson of "Ben" Butler. Mr. Humphreys' father was made governor of Mississippi in 1865, the year the present congressman was born, but the family had enjoyed the shelter of the executive roof only two or three years when Mr. Ames' father came along and evicted them.

General Ames, aided by federal soldiers, descended on the Humphreys establishment, forcibly ejected the governor and his family, and took possession of the mansion under the authority of "military governor."

Neither of the sons of the famous soldiers treasures any animosity over the occurrence, however. Both are veterans of the Spanish war, where they served under the same flag.

The 1,300,000 boys and girls in the high schools of the United States constitute the greatest force of any nation in the world for social uplift and advancement of civilization. In the opinion of Dr. T. J. Jones of the United States bureau of education, in a statement issued through the bureau "Doctor Jones declares that with the teachers of social science and history in these schools rests the responsibility of developing this force for national good."

"Good citizenship should be the direct aim of the high school courses in social science and history," says Doctor Jones. "Good citizenship is the test that must be applied to every topic in these courses. Facts, conditions, theories, activities, which do not contribute directly to the appreciation of methods of human betterment have no claim on the mind of the high-school pupil."

"Every pupil should know, of course, how the president of the United States is elected, but he should also understand the duties of the health officer in his community."

## LARGE ALFALFA SEED YIELD

One Plant Made Exceptionally Fine Growth of Leafy Stems—Soil Conditions Important.

(By P. H. BLINN, Colorado Agricultural College.)

A fine alfalfa plant, after running the gauntlet of a hundred thousand visitors, many of whom examined the pods, "to see if the seed had filled," and being shipped three times across the state by a local freight or express, and then traveling over nearly all the railroads of the state with the demonstration train, yielded 92.3 grams of clean seed, equivalent to 34 ounces of seed from the one plant.

The plant was found in a field of Baltic alfalfa, grown at the experiment station at Rocky Ford, the field was sown in 1911 in twenty-inch rows for seed production, the field was not irrigated during the year 1911, and was left to grow seed, the season was favorable for seed yield, and the field averaged less than fifty pounds of seed to the acre, yet this one plant, in the midst of the field surrounded by thousands of plants under the same conditions which failed to produce seed satisfactorily, made an exceptional growth of fine leafy stems and set such an enormous yield of seed.

Sixty grams of the seed from this plant have been used to seed a tenth-acre plot for increase at Rocky Ford, and also a row in the comparative nursery test that comprises other choice selections. Thirty grams of the seed have been sent to the station at Fort Collins to test out in that section of the state.

The work of selecting choice individual plants is resulting in a decided improvement of the type of alfalfa, not only for seed alone, but fine quality and a large production of forage.

The question of seed production seems to depend on more care in selecting soil conditions adapted to regulating moisture supply so as to make a slow dwarfed growth, yet insuring moisture to set and fill the seed.

OILS ANYTHING  
CLEANS, POLISHES EVERYTHING  
PREVENTS RUST EVERYWHERE

3-in-One has been for 15 years the Old Reliable, largest-selling home and office oil. It is light enough to oil a watch; heavy enough to oil a lawn mower. ## SHERMAN ON SUFFRAGE

Senator Sherman made one of his characteristic speeches in the senate when the delegation of several hundred women presented petitions asking for the adoption of the constitutional amendment, giving their sex the right to vote throughout the nation. Some of his best points were as follows:

"One third of the male lords of creation, now by the laws of the country given the right of self-government, voluntarily absented themselves from the polls last November," the senator said. "It is said that women will not and do not vote when the right is extended to them. Neither do or will the men in any larger portion. Therefore I am moved to say that the appreciation of the responsibilities imposed by the right to vote will be as thoroughly felt by the women of this country as by the men who now have and in part exercise that right."

"I am going to take a chance on this, Mr. President, because in the very nature of things, if womanhood has had some of her limitations removed, and no injury has resulted in years past, we had as well take the other limitations off, and make the opening words of the constitution of this republic a living, active dynamic force in the great republic of the western hemisphere."

"Someone has said to me, Mr. President, in private conversation of this question that womanhood will not improve politics. Well, if she does not, if she only keeps it from getting any worse, I am willing to take a chance on it. (Applause in the galleries.)"

"Woman is infinitely the superior of man in moral questions. We are of coarser fibre; we think in lower terms; but the woman, enlisted in the cause of moral progress, will protect her babes in infancy and she will protect the same babe in the years when he is an adult."

It is stated that Senator Lewis is nearly persuaded to join the suffragists' cause.

## COLONEL MULHALL

"Hell hath no fury like a woman scorned," unless it be a trust magnate out of a job. Colonel Mulhall having been hired as a "flect" to bark up and down the political highways and byways, was finally dropped from the roll. It hurt the colonel's feelings. In the first place he lost his job, and in the second place he felt that his eminent services were not requited. "Revenge," says the poet, "is the sweetest morsel with which the devil baits his hook to catch a sinner," so Colonel Mulhall saved his correspondence and "nursed his temper to keep it warm, like Tam O'Shanter's wife. The occasion came. The democrats in power eagerly sought investigation. The New York World wanted to expose something to maintain its falling circulation. The Chicago Tribune desired to excuse its defection to the bull moose party by insisting that the republican organization was rotten to the core. Here was Mulhall's opportunity. He sold his correspondence for \$10,000, and at the present moment he is in the limelight as a lofty and pure patriot. His letters are very interesting. They show that he raced after members of congress and used all his arts and pesterage to entrap them, and now he holds his victims up in the white light of ras cal who deserve to be pilloried. Colonel is a sample of the modern patriot. He sells his virtue for hard cash and then wants the purchaser to be punished for their wickedness.—Dwight Star.

Chicago—Cook county real estate and personal property is worth \$2,965,691,298, according to assessment figures, plus that which escaped.

Chicago—Winnie Flatley, aged 31, bounced a chair off the head of Lizzie Varley, who sang "At the Old Maid's Ball" with meaning and interpretative glances. The judge discharged Winie.

Milwaukee—Milwaukee women may wear bloomers, slit bathing skirts, men's bathing suits or whatever they like at the beaches, so long

as they wear something, announced Mayor Bading.

Peoria—Because an injury in a fall caused him to lose his fiancée, H. Ollery sued a transfer company for \$10,000.

Alex Les Bains—When Chauncey M. Depew tried to enter the Villa De Fleures, his way blocked until somebody whispered excitedly that he was "the second president of the United States."

London—More than a quarter million London children were not vaccinated in the past year because their parents objected.

Shanghai—The first Chinese bigamy trial, instigated by the new Chinese woman suffrage society, ended in Wu Chan Tse being sentenced to eight days' imprisonment.

Inhabitants of Flushing will have 38,500,000 chances to eat crabs. The fishery commission just liberated eleven female crabs carrying that many eggs, in Flushing creek.

Trenton, N. J.—Friends of Chas. Schroeder gave him \$100 to buy cork legs. Before he had a chance to obtain them, thieves made away with the money.

Atlantic, N. J.—A cupid's bureau is to be opened on the board walk. It will be a place where bashful bachelors and maids may become acquainted.

Sag Harbor, La.—"Good night," said one minute after nine at night by any girl under 16 who is not in her home, is a violation of a new curfew law here.

Geneseo (N. Y.) Editor Kills Himself. Geneseo, N. Y., Aug. 11.—Elliott W. Horton, editor of the Geneseo Democrat, shot and killed himself. He was fifty-five years old and founded the Democrat in 1885.

## SHADE FOR CHICKENS

Many Chicks Are Victims of Sunstroke or Apoplexy.

Natural Shelter Is Best Because It Is Usually Formed by Trees and Bushes, Permitting Free Movement of Air.

By PROF. JOHN WILLARD BOLTE.) Chickens are probably less able to stand the extremes of heat than any of our domestic animals, because they do not sweat to any great extent, hence are deprived of that safety valve that all of the domesticated animals possess. It is undoubtedly true that the chicken's comb and wattles serve to cool off its blood to a very marked degree, but even they will not avail in very hot weather and shade of some kind must be always available.

This is especially true with baby chicks, as they cannot stand the direct rays of the summer sun nearly as well as the other fowl can. Many chicks are victims of sunstroke or apoplexy every year, and it is usually the strongest and best developed ones that are overcome.

Natural shade is best of all because it is usually formed by trees and high bushes, sufficiently distant from the ground to permit free movement of air and the sun can get around to disfigure the ground at certain times. By means have your hen coops, brooders and colony coops located in the shade during the middle of the day.

If there is no shade available in the yard where the baby chicks run, it will be necessary to provide some. A mighty good scheme is to build a frame about two feet off the ground and cover it with four inches of sod or a foot of straw, weighted down. This heavy thick roof prevents the radiation of heat from its under surface and is quite waterproof, thus having the advantage of boards or canvas.

The ground under this shelter should be dry and dusty and the little fellows will spend the long, hot, noontime hours resting in the cool and dusting themselves.

With the older chickens, the problem is fully as serious and shade must be provided. This is sometimes done by raising the floor of the hen house a couple of feet above the ground, but this plan is objectionable because of its cost and the fact that the hens lay in this scratching compartment and rats harbor there.

An orchard forms the very best location for the chicken park, as the trees furnish shade and damaged or decayed fruit, while the hens eat the tree insects and enrich the soil. For the backyard flock of hens, either sunflowers or sweet corn will provide plenty of shade if planted thickly and early.

The hen house is usually of little value for shade within, because the roof is too low and the breeze cannot blow directly through. If cross ventilation is provided and there is an air space or straw loft under the roof, little outside shade needs to be provided. Wherever possible, have the house so located that there is room for the chickens to get in the shade on any side of it, out of doors.

ASSEMBLY PROGRAM  
CLOSED LAST NIGHT

Continued from Page 1

most creditably Secretary Rasch working day and night, and his splendid executive ability assisted him in no small degree. There were no irregularities in the work and with the assistance of Miss Gonneman the new secretary deserves credit for the success of the session. Rev. Darr entered into the spirit of his work and the platform announcements were given with grace and distinctness.

## Others Deserve Credit.

Among the musical talent who deserve credit are Misses Ruth Altman of Dixon and Florence Trough, Sterling, Miss Altman was always on duty at the piano and her playing is always of the best, Miss Trough, the promising vocalist, pleased many during the Assembly. The fact must not be lost sight of also that Dr. F. D. Altman, program manager, did his part well and to his is due much of the credit for this year's Assembly. The same can be said of every member of the board and various committees. Every detail was looked after for the comfort of the campers and no complaints were heard.

## Bathing Beach Open

Prof. Elisser wishes to announce that the bathing beach will remain in operation, under his supervision, for two weeks after the close of the Assembly.

## KANSAS IS GIVEN NO RELIEF

High Temperature During the Last Week Has Broken All Records—Most of Streams Are Dry—Colorado Fears Cloudburst.

Washington, Aug. 11.—Rains that swept the country from Nebraska to western New York, Saturday and Sunday have broken the heat siege in portions, at least, of the east central and west central states and will be of the greatest help to what remains of the crops, according to reports received here. The rains were steady with no driving winds and soaked gradually into the ground.

Dispatches indicate that the rains were very heavy over northern and central Illinois and Indiana.

## Light Rains in Iowa.

Iowa reports say light rains fell Saturday night and Sunday afternoon over a large portion of western and central Iowa, with local showers, light in character, in the eastern portion of the state.

Nebraska received fair rainfall over the district between Omaha and Shelton and prospects are for more rain over the corn belt.

Eastern Kansas and western Missouri sweltered under temperatures of 100, but there are excellent prospects for rain. Showers fell in western Kansas in spots from the Colorado line east to Holshington, but were not heavy enough to be of much benefit.

St. Louis reports no rain, but prospects are good for rain in that district. Recent rains have put the crops in good condition in the Dakotas, Minnesota and other states, and there is no further immediate apprehension in that quarter.

Experts in the corn trade say the rain came too late to be of much help to the crop, but say the benefit to hay, pasture and forage generally will be very great.

## Records Broken in Kansas.

Topeka, Kan., Aug. 11.—Ever since last Sunday, seven sweltering days, Kansas has been in the center of the heat wave that has rested upon the states of the middle west. The thermometer rose to 103 on Tuesday, 104 on Thursday, 103 on Friday and 101 on Saturday. This breaks all August consecutive heat records for the state since the weather department was established. All the creeks in the state are dry, and most of the rivers.

## Nebraska Corn Loss Heavy.

Omaha, Neb., Aug. 11.—Reports from every corn-raising county in Nebraska giving estimates upon corn to Saturday night indicate that this state will produce probably not more than 35 per cent. of a normal crop in that year.

## Cloudbursts Are Feared.

Pueblo, Colo., Aug. 11.—Fear of a devastating flood which is said to have formed between Colorado Springs and Pueblo by cloudbursts has caused warnings to be issued to all residents of the lowlands of the Fountain river in East and West Pueblo, to move immediately to higher ground. Word reached Pueblo from Pinon, Colo., that water in the Fountain river has reached far beyond the danger point.

## Save the Manure.

In promptly handling barnyard manure, the farmers can save or lose hundreds of dollars annually. A manure heap is a hot bed of bacterial activities. Some of the nitrogen is formed into ammonia and passes into the air; this is a clear loss. Some is transformed into nitrates, which are soluble. These are washed out by rains and sink into the soil or run off into the ditch; this also is a direct loss. Some is formed by bacteria into nitrates and these nitrates attacked by another species of bacteria which change into nitrogen gas, which passes into the air and is lost.

Earned runs—Dixon 1, Morrison 1.

Two base hit—Kalen. Sacrifice hits—Wilson, Morley. Stolen bases—Hurrett, Connors. Bases on balls—Off Huber 7, struck out—By Walraven 11 (Dalton, Vaile, Curran, Ruthe, Gregorer, Woodyatt, Devine, Kalen, Monahan, Connors, Huber); by Huber 21 (Burkett, S. Ruthe, Wilson, Ostrom, Curtis, Fletcher, Knox, 3, Howe, Walraven 3). Left on bases—Morrison 8, Dixon 4, Wild pitch—Walraven. Passed ball—Howe. Time of game—2:25. Umpires—Hogan and Wilson.

## Notes of the Game.

Morley was the only visitor whom Huber didn't fan, while Ostrom was the goat, falling for the strike out route four times out of five trips to the plate.

The day helped both pitchers with their speed balls for the batters, locking against the trees in center field in the cloudiness could do nothing but swing and trust to luck.

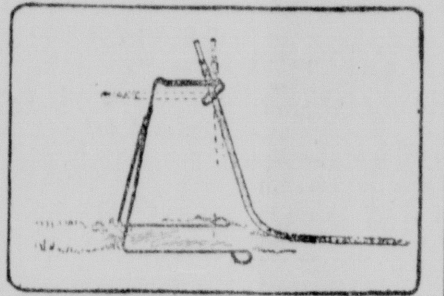

It required an hour and a half to play the first six and one-half innings.

The Browns go to Sterling next Sunday to tackle the West Ends, while the Stars stay at home and play the fast Kirkland bunch.

## USEFUL DEVICE FOR GARDEN

Effective Holder for Hose May Be Constructed Out of One Piece of Strong Wire.

This simple and effective holder for the nozzle of a garden hose is made of one piece of wire. The looped

Nozzle Holder.

portion at the upper end is so shaped that the nozzle can be set securely at any angle.

## Packing Small End Down.

An authority says that if the egg is placed on the side or large end, the heavy yolk will settle to the bottom and come in contact with the shell, which admits the air. If it is placed on the small end, it will always have a layer of white between it and the shell.

## Friers Overlooked.

Because it is a busy time of year we are apt to let fries go beyond the most profitable age. A weight of two or two and a half pounds brings the top price.

## SUPERIOR VALUE OF ALFALFA

Evident That Plant Furnishes as Near Perfect Ration as Anything Known to Agriculture.

Evidence accumulates daily of the superior value of alfalfa in the production of both milk and beef. A California Guernsey is reported as producing 444 pounds of butter fat in one year on a ration of alfalfa pasture and hay exclusively, the major portion of the alfalfa fed being hay. It is certain that this Guernsey was a good producer and capable of using her feed economically.

However, regardless of the ability of the cow to convert feed into milk, it is apparent that alfalfa hay and alfalfa as pasture comes as near constituting perfect ration for the dairy cow as anything known to agriculture. In the compounding of dairy rations it has long been regarded as necessary that a variety of feeds be used.

## SULZER DENIES CHARGE

New York Governor Says He Did Not Misuse Funds.

Issues Statement Saying He Spent Some of Campaign Contributions, But Repaid Them.

New York, Aug. 11.—Governor Sulzer issued a statement denying absolutely that he ever used campaign funds for speculation purposes. He gave out the statement following a conference with his political advisors.

The statement was given out by Chester C. Platt, the governor's secretary. Among those present at the conference were Louis Marshall, John A. Hennessy, Louis A. Sarreky, and Mr. Platt. The statement follows:

"In view of the fact that the Frawley committee is about to make its report of the investigation it has been making, I am advised that it would be unwise for me at this time to make any detailed statement in reply to the matters that had been brought to the attention of the committee, but having promised that I would furnish the press a statement, in fulfillment of that promise I make the following brief reply to the matters that I am informed had been brought before said committee:

"I deny that I used any campaign contribution for personal use.

"I deny that I speculated in Wall street or used money contributed for campaign purposes to buy stocks either in my own name or otherwise.

"I never had an account with Fuller & Gray or Boyer & Griswold. I never heard of these firms; I do not know the members and knew nothing about the transactions with these firms testified to before the Frawley committee until recently threatened with exposure, and the alleged transactions were brought to my attention by the Frawley committee.

"The stock matter with Harris & Fuller was not a speculative account of matter, but a loan made upon stock as collateral, which stocks had been acquired and paid for years before by nomination for the office of governor and from other sources than Harris & Fuller.

"Certain checks given to me for campaign purposes were deposited to my personal account, and thereafter I paid the amount of said checks to my campaign committee.

"In filing my statement of receipts and expenditures with the secretary of state I relied upon information furnished me by the persons in immediate charge of my campaign and in whom I had and have the most implicit confidence, and I believe the statement furnished by them to me to be accurate and true."

New York, Aug. 11.—There is a bare chance that Gov. William Sulzer may not be impeached and that his indictment will be sought instead. The Frawley committee is divided as to the course to follow, a member of it said.

## MANY CATHOLICS AT MEET

Three Thousand Attend Convention in Milwaukee.

Milwaukee, Aug. 11.—More than 30,000 Catholics are here for the twelfth annual convention of the American Federation of Catholic Societies, which opened yesterday with pontifical high mass and a parade. The parades were given an address of welcome by Mayor Bading and were formally received by him in the Auditorium.

Among the societies in line were the Uniformed Knights of Wisconsin, the Knights of Columbus, Ancient Order of Hibernians, Catholic Order of Foresters, Catholic Knights of Wisconsin and Polish, Bohemian and German Catholic Benevolent Societies.

By Dr. Frederick A. Cook

## SELF-BOILED LIME SULPHUR

Expert of Alabama Experiment Station Gives Some Excellent Advice on Spray Material.

Writing in regard to the use of self-boiled lime-sulphur solution to combat the San Jose scale, Dr. W. E. Hinds of the Alabama experiment station says:

"We cannot depend upon the heat of the lime to produce a combination that will be effective as a winter wash against San Jose scale. . . . I fear that the writers recommending this, confuse the preparation of self-boiled lime sulphur for summer use for brown rot with the fire-bolled wash for the scale. An ineffective wash means waste of the materials, labor and perhaps the ruin of the orchard also.

"There is, of course, latitude for some variation in the proportion of lime and sulphur, ranging between fifteen pounds and twenty pounds of earth. Considering the danger of getting a poor grade of lime, and the cheapness of that material, I believe it advisable to use slightly more lime than sulphur. I would advise eighteen or twenty pounds of lime and fifteen pounds of sulphur to make fifty gallons of wash. It is necessary to boil this for at least thirty minutes, and better, for forty-five or more, to get the most effective wash."

## Rape for Fall Feed.

Rape sown at the rate of two pounds to the acre in the cornfield when the last plowing has been done, or even later, will often furnish a wealth of fall feed for sheep, swine and cattle other than milch cows. Such a plan is especially good if "hogging off" corn is considered.

Lambs will eat the rape and not waste any of the corn, and will produce meat at a minimum of expense. It will be advisable to snap or husk the corn before any other animals are turned into the field.

## Here It Is.

Representative Willis of Ohio, champion speller of Congress, the other day received a word which he admitted he could neither spell nor pronounce. It was the name of a Chicago Greek confectioner and was sent to Willis by his brother. Here it is: "James Papatheodorakomountourgeotopoulos."

## JAP LAW IS NOW IN EFFECT

No Foreigner May Own Land in California From This Date.

Sacramento, Cal., Aug. 11.—The anti-alien land law, which roused Japan to diplomatic protest and brought forth talk of war, went into effect today. From now on no alien may own land in the state of California.

The bill, which called forth a protest from Ambassador Chinda, a protest from the White House, a hurried visit by Secretary of State Bryan to California and a storm of controversy in the United States and abroad, was drawn by Attorney General Webb of California. On May 2 the bill was passed by the senate by a vote of 36 to 2. It debarred the Japanese from owning or leasing lands.

## 6 KILLED IN EASTERN STORM

Gale Sweeps New York City, Part of Jersey and Philadelphia.

New York, Aug. 11.—Sweeping eastern Pennsylvania, the lower section of New Jersey and southern New York the most severe storm of the summer left death and destruction in its path. The death toll was taken by lightning, waters whipped into foam and a gale which reached a velocity of 80 miles an hour. Property losses will reach millions.

Prior to the storm the people of three states had sweltered in a temperature ranging from 92 degrees in New York to 96 degrees in Philadelphia. Three were killed and five succumbed to heat in the latter city, and many were taken to hospitals here and in New Jersey. In New York lightning claimed three victims.

## AUTO IN DITCH; THREE DIE

Toledo Traction Manager Killed and Two Other Persons.

Toledo, O., Aug. 11.—Louis E. Beilstein of Toledo, former general manager of the Toledo Railway & Light company; James P. Ross of Cleveland, superintendent of the Northern Ohio Traction company, and Howard Davis of Toledo, a chauffeur, were killed; J. F. Collins of Jackson, Mich., vice-president of the Michigan Union railway, was fatally injured, and E. T. Wickwire of Mansfield was seriously hurt when Beilstein's automobile, in which the five men were riding, turned turtle in a ditch near Wyandotte, Mich.

Federal Prison Guard Discharged.

Leavenworth, Kan., Aug. 11.—J. E. A. Clark, a guard at the federal prison here, was discharged on an order from the department of justice. He had been charged with having accepted a fee for cashing checks for prisoners.

## HUNDREDS REPORTED DEAD

Floods Cause Great Loss of Life in Bengal.

Calcutta, Aug. 11.—Floods resulting from heavy rains in Bengal are reported to have caused the loss of hundreds of lives and great financial damage. The River Damodar has overflowed its banks and flooded miles of country around Burdwanman, 56 miles north-west of here. Burdwan, with the palace of the titular maharajah and its many temples, is six feet under water. Railroad traffic has been suspended. Thousands of persons are homeless.

## PUBLIC SALE OF REAL ESTATE

Lewis F. Long Farm at Nelson

Lee County Farm at Auction. Must be Sold to Close Estate—113.5 Acres  
Highest grade Corn Land.

The undersigned executors of the last will of Lewis F. Long, deceased  
will on Tuesday, the 19th day of August, A. D. 1913, at 2 o'clock p. m.,  
at the farm sold to the highest and best bidder the land known as the  
Lewis F. Long farm, and described as the East Half of the Northwest  
Quarter of Section No. 28 and all that part south of the public highway  
of the Southeast Quarter of the Southwest Quarter of Section 21, all in  
Township 21 North, Range 8 East of the Fourth Principal Meridian, Lee  
County, Ill., containing 113.5 acres, more or less. This farm consists of  
first class corn land; the soil is heavy black loam. It is fenced and cross  
fenced with other good improvements consisting of 8-room dwelling  
and barn 36x60; double corn crib, house with good cellar and cistern; b  
26x32, single roof; hog house; chicken house; and tank house; one  
windmill and two never failing wells of good water. This farm is all til-  
lable and lies within 2 miles of Nelson, a fine shipping point on the  
main line of the C. & N. W. Ry. It also lies midway between Dixon and  
Sterling, 1 1/2 miles from each. One acre walnut grove, trees 35 years  
old.

TERMS OF SALE: Ten per cent of purchase price on day of sale; bal-  
ance on March 1, 1914, when deed and possession will be given. Abstract  
showing good merchantable title will be furnished buyer.

Conveyances will meet the morning trains at Nelson on day of sale to  
take interested persons to farm for inspection.

For further particulars inquire of said executors, Dixon, Ill.

NORMAN H. LONG,  
SAMUEL T. LONG,  
Executors Aforesaid.

E. H. BREWSTER, Attorney.

CLARENCE E. GARDNER, Auctioneer, Rochelle, Illinois.

## THREE CLASSES OF MEDICINES

are the Animal, Vegetable and Min-  
eral, of which the Vegetable King-  
dom furnishes by far the most and  
the best, over 700 varieties of roots,  
plants and herbs are known by phar-  
macists to have medicinal value and  
probably the "Indian Medicine Man"  
knows of as many more. It was in  
this most interesting study, more  
than forty years ago, that Lydia E.  
Pinkham of Lynn, Mass., discovered  
her now famous Vegetable Compound  
for women's ills which has proved of  
incalculable value to hundreds of  
thousands of American women. Its  
wonderful success proves its merit.

Do not fail to get one of Dr.  
Cook's new books at the Telegraph  
office.

## BRYAN RELIEVED WHEN LIND WIRES

Secretary Remains in Office at  
Washington Until News  
Comes of His Safety.

### ENVOY'S VIEW IS AWAITED

Bacon Issues Statement in Which He  
Says That President is Facing "A  
Great Responsibility" and Has  
Support of Senators.

Washington, Aug. 11.—Following the  
arrival in Mexico City of John Lind,  
personal representative of President  
Wilson, administration officials de-  
clared that no further steps would be  
taken in carrying out the policy of  
the United States until Mr. Lind had  
made a careful study of the situation  
in Mexico.

News of the safe arrival of Mr. Lind  
in the Mexican capital followed sev-  
eral hours of suspense. The complete  
absence of any information of the  
progress of the party from the time it  
left Vera Cruz added to the uneasiness,  
which was heightened by vague  
rumors of attacks on Mr. Lind and his  
family and associates.

Secretary Bryan remained at his  
desk until midnight anxiously awaiting  
some report from the embassy at Mex-  
ico City. When it finally came it  
proved to be merely a terse announce-  
ment of the arrival of the special en-  
voy, coupled with the announcement  
that he and his party were safely quar-  
tered at the Hotel Lascruain.

#### To Work Through Charge.

While the president has mapped out  
a distinct course of action about which  
strict secrecy is being maintained, it  
is known that the instructions to be  
sent Mr. Lind from time to time will  
depend largely on developments in the  
Mexican capital in the next few weeks.

Mr. Lind will make all his recom-  
mendations to Charge O'Shaughnessy,  
so that whatever representations are  
transmitted by the latter to the Huer-  
ta government will differ in no way  
from the notes the American govern-  
ment has hitherto addressed to the  
de facto authorities in the Mexican  
capital.

Mr. Lind's connection with them, it  
was stated, would not be apparent.  
His mission, it was explained, is to  
substantiate unofficially for Ambassa-  
dor Henry Lane Wilson.

#### Senators Uphold Wilson.

Further enlightenment as to the en-  
dorsement of Mr. Lind and the policy the  
president has formed came last night  
from Senator Bacon, chairman of the  
senate committee on foreign relations,  
who declared that President Wilson  
was facing "a great responsibility" in  
the present situation, and had the  
heartly support and co-operation not  
only of the foreign relations commit-  
tee but of members of the senate gen-  
erally, regardless of party lines.

To explain various interpretations  
of Saturday night's conference be-  
tween the president and the foreign  
relations committee Senator Bacon  
made the following statement:

"The foreign relations committee  
recognizes the president is acting in  
good faith in trying to solve this  
problem peacefully. The president's  
undertaking is with that view and in  
that general purpose the committee  
are in accord and have confidence in  
his sincerity and integrity. They re-  
cognize he wishes to settle the ques-  
tion without violence and for the best  
interests of the United States and of  
Mexico.

"There is some divergence of opin-  
ion in the committee. It could not be  
otherwise. Some favor more  
drastic measures than others. The  
committee generally sympathizes with  
the president's desire to avoid inter-  
vention or anything that will produce  
war. Even those, however, who favor  
drastic measures have confidence in  
the president and are supporting him.  
I think, with a few exceptions, there  
is no disposition to draw party lines.

#### Strive to Avoid War.

"While there is a small element in  
this country that would like to see  
war, the large majority of the people  
deprecate it most earnestly and thor-  
oughly sympathize with the desire of  
the president to avoid it.

"There is no secrecy on the part of  
the president as to the general pur-  
poses he has in view and the general  
methods he is trying to employ. While  
generalities can be safely dealt with,  
there are some matters of detail  
which in a delicate situation of this  
kind cannot be prematurely made  
public.

"There never was a greater responsi-  
bility on a man than now rests on  
the president of the United States  
to guard this country against being  
involved in war on account of Mex-  
ico, and I believe that it is the duty  
of every man, inside and out of con-  
gress, who has confidence in the in-  
tegrity and capacity of the president,  
to hold up his hands in the effort he  
is making, and to do as little as pos-  
sible to embarrass him in working  
out successfully the difficult under-  
taking."

#### Gaynor Heads Tammany Slate.

New York, Aug. 11.—Charles F.  
Murphy's presence in the city Friday,  
when he spent the day in conference  
with prominent district leaders, was  
explained when it became known that  
Tammany has made up a tentative  
slate for the city ticket. The ticket  
is headed by William J. Gaynor for  
mayor.

## When Dear Friends Meet

With a little shriek of joy the girl  
with the imitation mink hat pulled  
down on her head like a hood ran  
into the arms of the young woman  
with the mesh bag, vanity case and  
several other metal trinkets dangling  
from her wrist.

"Why, Sadie!" she cried, "I haven't  
seen you for an age! How are you?"  
"Fine!" said the girl with the mesh  
bag. "The powder shows on your nose,  
dear—and rub your left cheek, for  
you've got the color too high! Where've  
you been keeping yourself?"

"Oh, I have been so busy going to  
things!" said the girl with the mink  
hat. "It's funny I never see you out  
anywhere, but then, I suppose a per-  
son can't go out if she doesn't get in-  
vitations. You've run your right eye-  
brow a bit above the line, dear. You  
ought never to use an eyebrow pencil  
except in a strong light."

"Thank you," said the girl with the  
mesh bag fervently. "You ought to  
know about those things, if any one  
does. My eyebrows are real, as it  
happens! No, I don't care to run around  
with mixed crowds—that's why you  
haven't seen me. I prefer more select  
entertainment and then I have so  
many callers that I am kept in a good  
deal. Tom said just the other night  
that it seemed perfectly impossible  
ever to get a word with me alone,  
because there always were so many  
other men there!"

"Oh, is Tom coming to see you?" lan-  
guidly asked the girl with the mink  
hat. "Poor fellow! I suppose anything  
to distract him and fill up his time  
is what he seeks. He's nice and all  
that, but he isn't my style and I had  
to let him down gently for his own  
sake!"

"No, you aren't Tom's style," agreed  
the girl with the mesh bag, sweetly.  
"He is so refined and quiet and hates  
displays. He has such beautiful man-  
ners, don't you think?"

"Oh, you might think so," admitted  
the girl with the fur hat, "but to a  
person who has had a lot of experience  
with many different men, Tom is sadly  
in police and assurance, dear! You'd  
know at once that he wasn't used to  
mingle in the best society."

"Dear me!" said the other girl. "You  
must be awfully mad at Tom for not  
calling."

Her friend raised her brows in ap-  
parent surprise. "Why, I wouldn't say  
anything against Tom for the world!"  
she exclaimed. "I was just telling you  
my private opinion of him! I'm so  
glad you can find something interest-  
ing in him, because it's nice for you  
to have some one calling, and as for  
him, I suppose one girl is very like  
another now. I'm sure I did all I could  
to make him see how useless it was  
for him to fall in love with me—there,  
I never meant to say a word! Just  
forget it, dear!"

"So Tom was in love with you, was  
he?" cried the girl with the mesh bag.  
"I guess you wouldn't think so, if you  
could hear what he has said to me!  
And I guess when a man calls twice  
a week regularly as he does on me  
and never looks at another girl, he  
isn't very heartbroken over anyone  
else! Mercy, I almost dropped my  
vanity case and I wouldn't mar it for  
the world—Tom gave it to me Christ-  
mas!"

"Yes, I was noticing it," said the  
girl with the fur hat. "How nicely it  
polished up! It got scratched quite a  
little the short time I carried it. Tom  
made such a fuss about my refusing it  
that I had to keep it a little while.  
My birthday last September, you know,  
I never accept presents of any value  
from a man—it's so ill-bred! Of  
course, this being a cheap one, I sup-  
pose I might have kept it, but I'm pe-  
culiar about those things!"

"I don't suppose," said the owner  
of the vanity case in tones of con-  
centrated fury, "that you also hap-  
pened to notice that my initials are cut  
on this in a big monogram?"

"They're very clever nowadays at  
the shops in erasing one set of letters  
and putting on another, aren't they?"  
Inquired the young woman with the  
mink hat, casually. "I'm glad you like  
it—I never need powder and rouge, so  
it didn't appeal to me. Doesn't Tom  
ever take you to the theater or any-  
where? I haven't seen you with him.  
When I knew him he was such a thea-  
ter-goer—I actually had to scold him  
the way he bought tickets!"

"We always sit in the parquet when  
we go," said the girl with the vanity  
bag. "That's why you haven't seen  
us—you can't distinguish who people  
are from the balcony, you know. Well,  
I must be running along. I'm going  
to meet Tom for lunch. So glad to  
have met you!"

"Good by!" snapped the girl with  
the fur hat. "I hope you'll have a love-  
ly time! Mercy! Tom would bore me  
to death! Give him my love, dear!"

#### Logical Opposition.

Mrs. Carrie Chapman Catt, advocat-  
ing woman suffrage in New York,  
said:

"I have never heard in all my life a  
single syllable of logical opposition to  
woman suffrage. The average opposi-  
tion is neither better nor worse than  
the argument of a certain carter."

"Ah," he growled, "wot would wom-  
en do with a vote if they had it? Con-  
trary critters! Why, if I says to my  
old woman, 'Gimme liver and bacon  
for dinner,' do I git it? Naw! I git  
tripe and onions."

#### Give Cows a Rest.

It is well, when possible, to give a  
cow from six to eight weeks' rest be-  
tween her periods of lactation, but if  
it is impossible to dry her off it is bet-  
ter to continue milking than to at-  
tempt to force her dry.

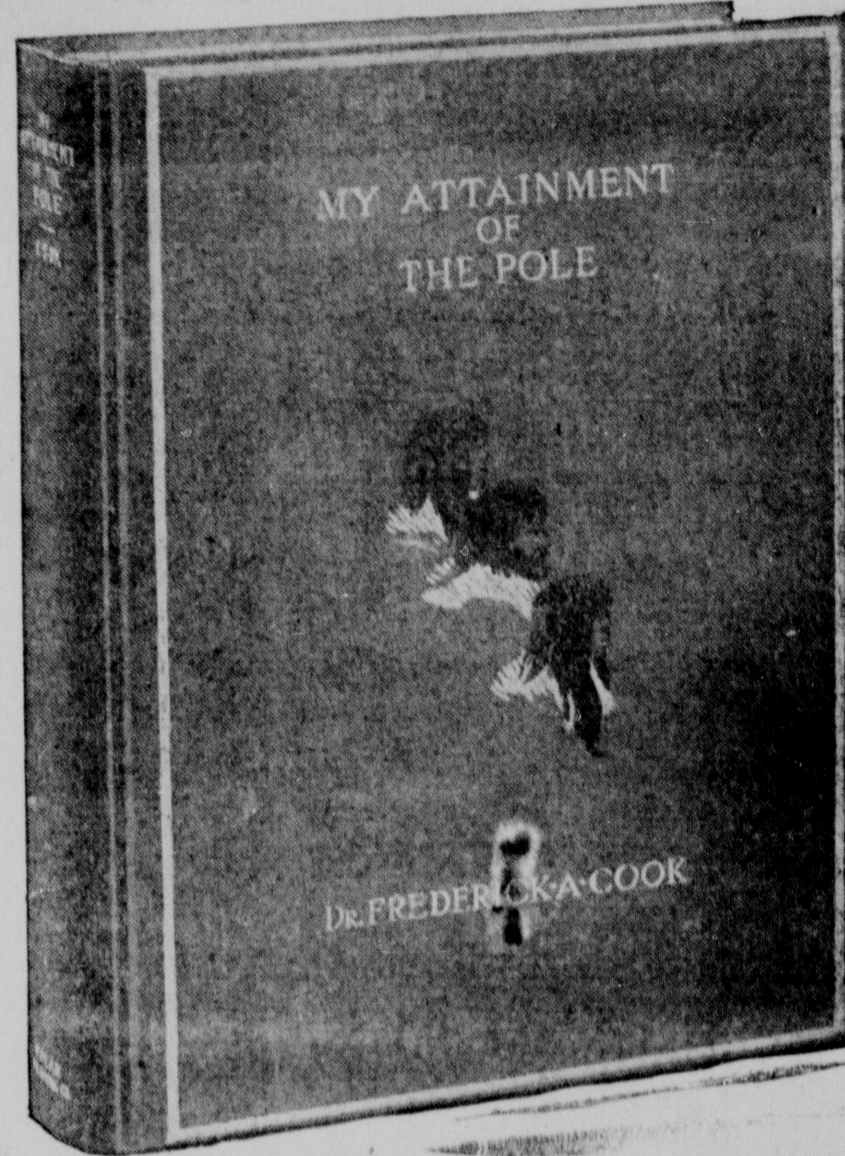

#### Farmer Was Puzzled.

A Virginia farmer was puzzled to  
find green hickory nuts under a tree  
that looked mighty like a mulberry.  
He sent the nuts and a part of the  
tree to the experts of the United  
States department of agriculture. The

mystery was solved by B. T. Gailo-  
way, assistant secretary of agricul-  
ture. "Bluejays," he explained. "The  
bluejay carried the hickory nuts un-  
til he found the ripening mulberries.  
Then he did not bother to carry the  
hickory nuts back where he found  
them. That was all."

## EAGERLY AWAITED FOR TWO YEARS

Dr. Cook's book embodies revelations, supported by documentary evi-  
dence, showing bribery and forgery in the campaign to discredit him.

Returning from the Arctic in September, 1909, and reporting the discovery of the North Pole, Dr.  
Cook was hurled on a wave of enthusiasm to a zenith of world-popularity unparalleled in history. No  
human being perhaps ever passed through such a spectacular series of events. The lives of few men  
are so dramatic, so replete with contrasting elements of victory and tragedy.

On reaching the shores of his own country, Dr. Cook found himself the object of a rival campaign  
to discredit him—which, for bitterness and persistence, has never been equaled in the annals of ex-  
ploration. Egregious charges of all sorts were made against Dr. Cook. In the face of all this he pre-  
served a gracious and non-attacking attitude which won him millions of friends.

Desiring to refrain from a campaign of personal counter-abuse, Dr. Cook chose to retire quietly  
to the height of the controversy. This action was gleefully misinterpreted by his enemies as an admission  
of imposture.

Misrepresented in the press of the world for more than a year, persistently misquoted and varied-  
ly lied about, Dr. Cook took advantage of the quiet and rest afforded by his absence to gain a proper per-  
spective of his situation, to marshal the proofs upon which he based his Polar claim, and to secure evi-  
dence—through friends in America—of bribery and fraud in the conspiracy to discredit him.

Returning to the United States, as he always intended to do, Dr. Cook found the press influenced  
against him and its columns closed to the full facts about himself and his detractors. Every sort of  
unfair method had been used to down Dr. Cook. A popular magazine, to which he gave a series of arti-  
cles explaining his conduct, edited and garbled these, and, for advertising purposes, deliberately mis-  
construed his analysis of the impossibility of scientifically ascertaining the pin-point Pole as a "confes-  
sion."

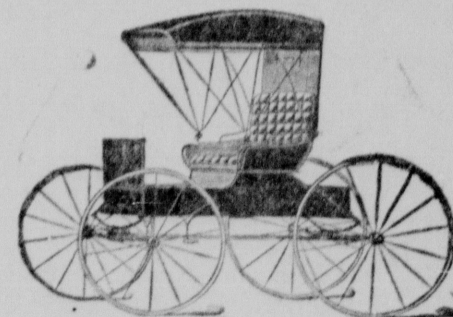

Misrepresented in almost every newspaper throughout the world, Dr. Cook was willing to wait to  
publish his case until he had secured irrefutable facts exposing the most unscrupulous and widespread  
campaign of defamation in history. A series of articles, explaining his attitude, and given to a popular  
magazine last January, were edited and garbled and important revelations of fraud in the  
rival campaign against him were unfairly eliminated. Dr. Cook's analysis of the impossibility of sci-  
entifically ascertaining the pin-point location of the Pole was dishonestly construed as a "confession."  
To advertise itself—and thus harming a man who had already been deeply wronged—this magazine  
sent broadcast newspaper stories falsely representing Dr. Cook as admitting doubt about ever having  
reached the Pole and making a plea of insanity.

Dr. Cook has never made a "confession."

Dr. Cook's full story of his hazardous Arctic experiences, and of the most spectacular controversy  
of history, as the autobiographical document of one of the most interesting and picturesque personali-  
ties of modern times, will take its place among the world's great literature.

#### LOST

LOST. Fountain pen. Return to this office or Miss Carson, 1209 West 4th St. 82 6

#### COVERED MILK PAIL IS BEST

Open Vessels Contain Many More Bacteria Than Where Open Top Receptacles Are Used.

At the Connecticut experiment station it was found that milk from an open pail contained 6 1/2 times as many bacteria as when a covered pail was used. In another stable, not quite so clean, the open pail contained 30 times as many bacteria.

Stadtmeueller Pail.

In another very dirty farm, 97 per cent. of the bacteria were kept out by the covered pail. At the Wisconsin station extended tests showed 20 times more bacteria in milk from an open pail than where a small top pail was used.

#### SEASON'S OUTING HATS

ATTRACTIVE AND VARIED STYLES ARE OFFERED.

Small, Close Shape is the Best Liked—Smart Models in Sailor Designs—Ratine and Linen Combine With Taffeta.

Outing hats of this season are of many shapes and kinds and on the whole are more attractive and varied than usual. Any of the small close hats popular for street wear will serve for motoring, but it is well to have something dustproof for summer touring and many women object to being swathed in all-enveloping dark veils with or without the shields over the eyes.

A hat of burnt straw has a rounded crown of the same straw, not too high, and fitted lightly down around the head without drooping too low over the forehead. In fact, there is a little curve or dent up at the left front which adds greatly to the becomingness of the model. This hat is extremely light in weight and its only trimming is a folded band and a bow of black patent leather lying closely against the hat and looping exceedingly smart against the yellow straw. The sailor takes on various forms this season. One smart model is made of glistening black rubber. The hat has a shapely crown and the narrow,

slightly turn-down brim is lined in red taffeta. For riding, sailor and continental shapes are the popular summer hats, but for winter and formal equestrianism the derby holds first place. English women rather like a rather wide brim derby or fine straw, and it has its merits, but it has not been accepted here.

Sailors are always in vogue for general outing wear, but the popular outing hats of the summer are likely to be the panama, peanut, leghorn and other scapple straws with brims that may be strapped or caught as the wearer pleases.

Some good models have wide brims drooping slightly all round and trimmed simply with a band of black velvet. Others are turned up directly in front or at the side and held by some sort of ornament, or perhaps the wide, soft brim merely rolls upward toward its edge at the left front and is not caught up at all.

Ratine and linen is also made up in combination with taffeta. The white ratine or linen on the outside with the under brim faced with black, blue, red or green taffeta.

A fold of the colored taffeta surrounding the round shaped crown of the hat and held in place by little tabs of white material.

An attractive and picturesque model of the felt and straw combination is trimmed around its low, flat crown with a band of

Bulgarian embroidery. The brim is wide and drooping, making an excellent protection for the sun, shore-wear or canoeing on mountain lakes.

There are a great variety of bathing caps this season and the very newest thing shown in this line perhaps is the two-piece rubber cap. The cap is of tannish-colored ribbon, edged with black. There is a large, round shape, which is laid over the head, which, when placed on the head, falls in ripples around the face. A scarf of the rubber is swathed around the head, holding the round piece of material in place, and is tied in large loops and ends at the sides.

#### CACHET FOR THE PETTICOAT

Band of Ribbon at the Knees Adds to Effect of Costume—Also May Be Worn Around Bust.

The question of petticoats is a most important one just now, for with the narrow skirts and the lace underslips required by fashion, one wonders how a girl is to acquire even that semi-clothed look that is rather expected of her, for her colored stockings will show at the knees if she wears a lace petticoat, and there is no room for her skirts—however, a band of ribbon about six or seven inches wide can be run on flat at the knees and will greatly add to the effect of her costume. Another wide ribbon may be worn straight around the bust under the arms and will bring out the lace brassiere on top of her princess slip, and in the uncorseted days, if the ribbon be boned slightly at front and back, may really be worn with a well-made lace brassiere instead of a corset, if one be of the ultra slim figure that is now in vogue.

#### Square Necks Worn.

A peasant bodice cut out square to the bust line and filled in with folds of soft chiffon or net is gradually winning by a neck over the pointed décolleté. As with all necks, whether round, square or V-shaped, it has its omnipresent ruche of plaited lace or net, and an original note on some of these gowns shows a fall of lace in the middle of the back from the up-standing de Medici ruff—a jabot worn behind.

#### COLLARS AND JABOTS

ACCESSORIES THAT GIVE THE TOUCH OF INDIVIDUALITY.

Choice of Styles is Wide, Therefore Selection Should Not Be Hurdled—Two of the Prettiest Popular Designs.

The simplest frock of linen and gingham can be given a touch of individuality by the collar and jabot, which can reflect the new styles, show handwork and give freshness in either white or color at the top of the blouse.

Twine-colored etamine is combined with strawberry pink linen in a pretty collar. This is a plain shape, but the alliance of the two materials gives an extremely smart effect. At the corners are conventional roses embroidered in pink wool. Two long ends of the etamine are edged with pink linen and embroidered.

Pale blue linen is also seen, combined with sheer white linen, the latter tucked and forming the upper

part of the collar. The vandyke points are of blue and points of ecru lace finish the collar, the whole being edged with a pleating of sheer linen. A broad tucked bib hangs in front, the points of blue linen and heavy lace edging it. A pink ribbon bow trims the top.

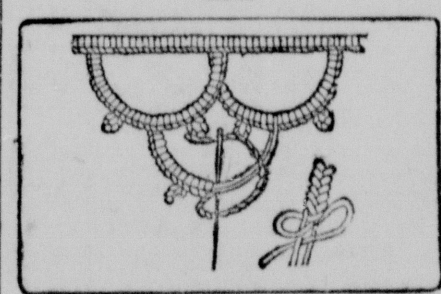

Another extremely popular model is of pale pink linen combined with fine white linen and Irish lace. Pink coral buttons are used on the pleated jabot, and long lines of pink floss are embroidered on the edge of the top collar and the long jabot.

Striped linen in blue and white trims a collar with the straight vest effect. This shows width over the shoulders, very shallow in front. A band of striped linen is set one inch in from the edge, a ruffle of linen finishing it. The straight piece in front is of striped linen in the center and narrow strips on each side trimmed with pearl buttons and loops on souches. Around the straight piece is a ruffle of linen.

Heavy raspberry-pink linen is used to trim a collar of sheer white linen in a modified sailor collar. The pointed top is of pink, with the color carried out in embroidery in each corner. A pleated white jabot drops down from the center. The pointed end is edged with pink and a line of pink linen buttons trims the front. Any color with white will carry out this idea.

The high price of hand-worked collars and jabots puts a variety of them beyond the reach of the usual purse, if they must be bought. Handwork should be possible to every woman who is not an idiot. It is easy and admits of many innovations. It can be equally effective in either simple or elaborate form. Its distinctive, individual note is always appreciated by the well-dressed woman. How easy it is! If you once try the touch of handwork, especially on accessories, you will become an ardent follower of the thread and needle. It will in all cases lead you to success.

#### PICOT EDGE

Picot edge is used for finishing centerpieces, jabots and handkerchiefs. The edge is first finished with very narrow buttonhole-stitch, then make a loop by catching the thread back and forth two or three times and buttonhole stitch over this loop until the space is filled. At regular intervals make a little loop in the thread as shown in the illustration. When each loop is finished go to the next in the same way.

#### DICTATES OF FASHION

Pink and blue is the combination for summer.

Bullet buttons are seen on all light weight cloth suits.

A long oval side panel on a new skirt is weighted down by a long silk tassel.

Hats are growing larger, the drooping garden variety being very prominent for afternoon.

Fichu lines in vests and gumpes are here. They are suggested in crossed net, tulle and soft mull.

#### TIME TABLE.

##### ILLINOIS CENTRAL RY.

Correct time of a train leaving Dixon that carry passengers, and freight, daily. \*Daily except Sunday.

RIPENING CREAM ON A FARM

Many Fail to Grasp Principles Underlying Qualities of Good Flavor and Desirable Aroma.

(By G. E. FRYE, Idaho Experiment Station.)

There is perhaps no other factor in farm butter making that causes more trouble than the lack of proper ripening or souring of the cream. On many farms the ripening is done with no other purposes in view than that of causing the cream to churn more easily.

The object in ripening cream should be to cause the cream to churn more readily, and to produce desirable flavor and aroma. That cream will churn more readily when sour is a fact well known to any one who has had experience in making butter. However, when it comes to the production of good flavor and aroma in the butter, many fail to grasp the principle underlying the production of these good qualities. The main reason why butter fat commands a higher price on the market than other fats is that it has a peculiarly desirable flavor and aroma which cannot be exactly reproduced in other fats. For this reason it is desirable and profitable to develop these qualities in butter to the highest possible degree.

In order to produce desirable flavor it is very essential that the milk and cream be handled under sanitary conditions.

To introduce filth into the cream is to introduce not only the bad flavors which that filth contains, but also germs which will tend to develop some kind of a bad flavor in the cream.

The germs or ferments which produce a clean sour taste in the cream are the ones that will produce a good flavor in the butter. The addition of a small amount of clean tasting sour skim milk or butter milk to the cream about six or eight hours before churning will introduce desirable germs which will sour the cream and at the same time produce desirable flavors in the butter.

Supervisor Wm. Edwards of Amboy was here today.

THERE'S a lot of money here and in this vicinity. Possessors of that money read this paper; they swear by it. They want to be shown. If your goods are right, they want to buy. This paper talks to that money at regular intervals. It's money that talks back and talks back strong. Get your share—do your talking through our advertising columns.

## Time-Saver.

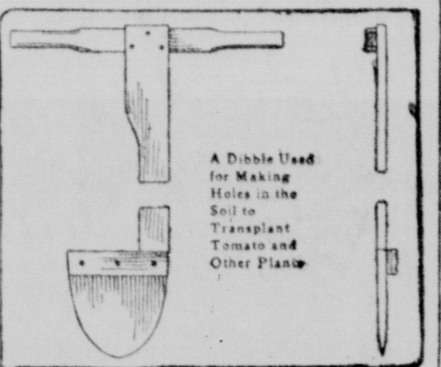

When embroidered sheets, pillowcases and towels are worn the initial or monogram may be cut out in a circle and used again by buttonholing or featherstitching neatly onto a new article.

An easy way to mark sheets, pillowcases and towels is to write your initials or name in pencil, then carefully stitch over the lines on your sewing machine, using a coarse thread and close stitch. White or colored cotton may be used.

## HOME-MADE GARDEN DIBBLE

Experiences Teaches That Implement Made of Flat Board Works Well and Leaves Clean Hole.

A dibble made of a round and sharp-pointed stick is the usual tool for making holes when setting tomato and other plants. I found by experience that dibble made of a flat board

would work much better and leave a cleaner hole if worked into the earth with a horizontal swinging motion, says a writer in the Popular Mechanics. The hole produced in just right for the plant. The illustration shows its construction.
